Nowoczesna Stacja Paliw (Modern Petrol Station) is a quarterly magazine aimed at independent owners and operators of gas stations, service stations and carwashes. It covers wide range of useful topics including petroleum vending, running a convenience store, bar or restaurant and all possible additional services, such as carwashes, hotels and so on.

Our main goal is to support gas station managers in their effort to optimize their businesses in a current market situation.

With a circulation of 3,500 copies each issue we reach out to all independent gas station operators, managers in petroleum corporations, trade chambers' key personnel and market analytics.

Editorial content consists of industry news, useful advisory, interviews with market key figures and news and tips from market suppliers.

As journalists specialised in gas stations industry, we are present at all important conferences, meetings and fairs.
